

2008 Current Fiscal Year Report: Climate Change Science Program

Development Advisory Committee

Report Run Date: 06/05/2019 07:33:27 AM

1. Department or Agency

Department of Energy

2. Fiscal Year

2008

3. Committee or Subcommittee

Climate Change Science Program Development Advisory Committee

3b. GSA Committee No.

28517

4. Is this New During Fiscal Year?

No

5. Current Charter

03/17/2008

6. Expected Renewal Date

03/17/2010

7. Expected Term Date

09/30/2008

8a. Was Terminated During Fiscal Year?

Yes

8b. Specific Termination Authority

8c. Actual Term Date

08/16/2008

9. Agency Recommendation for Next Fiscal Year

Terminate

10a. Legislation Req to Terminate?

No

10b. Legislation Pending?

11. Establishment Authority

Agency Authority

12. Specific Establishment Authority

AGEN

13. Effective Date

02/10/2006

14. Committee Type

Continuing

14c. Presidential?

No

15. Description of Committee

Scientific Technical Program Advisory Board

16a. Total Number of Reports

1

16b. Report Date

07/31/2008

Report Title

Climate Models An Assessment of Strengths and Limitations

Number of Committee Reports Listed: 1

17a. Open 1 17b. Closed 0 17c. Partially Closed 0 Other Activities 0 17d. Total 1

Meetings and Dates

Purpose

Discussion on how public review comments and comments from CPDAC members have been addressed by the SAP 3.1 author team; seek concurrence on the report.

Start

End

01/28/2008 - 01/28/2008

Number of Committee Meetings Listed: 1

Current FY Next FY

18a(1). Personnel Pmts to Non-Federal Members

\$0.00 \$0.00

18a(2). Personnel Pmts to Federal Members

\$0.00 \$0.00

18a(3). Personnel Pmts to Federal Staff

\$51,000.00 \$0.00

18a(4). Personnel Pmts to Non-Member Consultants

\$0.00 \$0.00

18b(1). Travel and Per Diem to Non-Federal Members

\$0.00 \$0.00

18b(2). Travel and Per Diem to Federal Members	\$0.00	\$0.00
18b(3). Travel and Per Diem to Federal Staff	\$0.00	\$0.00
18b(4). Travel and Per Diem to Non-member Consultants	\$0.00	\$0.00
18c. Other(rents,user charges, graphics, printing, mail, etc.)	\$1,132.00	\$0.00
18d. Total	\$52,132.00	\$0.00
19. Federal Staff Support Years (FTE)	0.40	0.00

20a. How does the Committee accomplish its purpose?

The Committee has subcommittees of lead author teams for the two Climate Change Synthesis and Assessment Reports that the Committee is charged with developing. The lead authors present draft reports to the committee for discussion, modification and approval. These reports will be sent to the US Climate Change Science Program for consideration as the following two CCSP Synthesis and Assessment Reports: Report 2.1: Scenarios of Greenhouse Gas Emissions and Atmospheric Concentrations and Review of Integrated Scenario Development and Application.2.1a: Scenarios of Greenhouse Gas Emissions and Atmospheric Concentrations 2.1b: Review of Integrated Scenario Development and Application Report 3.1: Climate Models: An Assessment of Strengths and Limitations for User Applications

20b. How does the Committee balance its membership?

The membership includes experts in climate and other environmentally-related scientific research from National Laboratories, industry, universities, and Federal agencies. The composition of the membership reflects the expertise necessary to develop the Synthesis and Assessment Reports 2.1 and 3.1.

20c. How frequent and relevant are the Committee Meetings?

The full committee meets about 4 times a year. The meetings are very relevant and important to the development of the Synthesis and Assessment Reports. The meetings serve as opportunities for feedback and exchange between the full committee and the subcommittee of lead author teams, who are all members of the Advisory Committee. The Synthesis and Assessment draft reports are discussed, modified and approved or returned to the subcommittee for additional work.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

No other committee exists within or outside of DOE that has the breadth of membership and necessary expertise to draft the Synthesis and Assessment Reports 2.1 and 3.1. The committee has insights that provide a sound and broad base for the content of these reports.

20e. Why is it necessary to close and/or partially closed committee meetings?

The full committee meetings are always open to the public and on no occasion have they even been partially closed.

21. Remarks

Designated Federal Officer

Anjuli Bamzai DFO

Number of Committee Members Listed: 29

Narrative Description

The Climate Change Research Division includes process research and modeling efforts to (1) improve understanding of factors affecting the Earth's radiant-energy balance; (2) predict accurately any global and regional climate change induced by increasing atmospheric concentrations of aerosols and greenhouse gases; (3) quantify sources and sinks of energy-related greenhouse gases, especially carbon dioxide; and (4) improve the scientific basis for assessing both the potential consequences of climatic changes, including the potential ecological, social, and economic implications of human-induced climatic changes caused by increases in greenhouse gases in the atmosphere and the benefits and costs of alternative response options. The research activities represent DOE's contribution to the U.S. Climate Change Science Program (CCSP), a program that integrates federal research on global change and climate change. CCSP is bringing out a suite of 21 "synthesis and assessment" (S&A) products. As a key component of the CCSP Strategic Plan (released July 2003), they integrate research results focused on important science issues and questions frequently raised by decision makers. The S&A products support informed discussion and decisions by policymakers, resource managers, stakeholders, the media, and the general public. They also help define and set the future direction and priorities of the program. The products help meet the requirements of the Global Change Research Act of 1990. The law directs agencies to "produce information readily usable by policymakers attempting to formulate effective strategies for preventing, mitigating, and adapting to the effects of global change" and to undertake periodic scientific assessments. At the request of the DOE, in accordance with the interagency CCSP Guidelines for Producing the CCSP S&A Products, the Climate Change Science Program Product Development Advisory Committee (CPDAC) has been engaged in drafting two S&A Products. Both reports of the first product (2.1), as well as the second

report (3.1) have been completed by the CPDAC. The first product (2.1) consists of two reports, one of which provides updated scenarios of greenhouse gas emissions and concentrations. This report (2.1a) includes: (1) a summary of the scenarios for interested non-specialists; (2) documentation and discussion of the scenarios; and (3) information about the integrated assessment models used to generate the scenarios, including pertinent, aggregate-level, numerical information reported consistently across all scenarios and associated “reference” cases, such as for example, emissions trajectories, energy contributions over time, and population trajectories. The second report (2.1b) is a state-of-the-art review of the development and application of integrated scenarios of greenhouse gas emissions. This report reviews and evaluates how the science and stakeholder communities define, develop, implement, and communicate scenarios in the global climate change context, and how this process might be enhanced or improved. It includes a review of past scenario development and application efforts. The second report (3.1) is an assessment report of climate models, their uses, limitations, sensitivity, feedbacks, and uncertainties.

What are the most significant program outcomes associated with this committee?

Checked if Applies

- | | |
|---|-------------------------------------|
| Improvements to health or safety | <input type="checkbox"/> |
| Trust in government | <input type="checkbox"/> |
| Major policy changes | <input type="checkbox"/> |
| Advance in scientific research | <input checked="" type="checkbox"/> |
| Effective grant making | <input type="checkbox"/> |
| Improved service delivery | <input type="checkbox"/> |
| Increased customer satisfaction | <input type="checkbox"/> |
| Implementation of laws or regulatory requirements | <input type="checkbox"/> |
| Other | <input checked="" type="checkbox"/> |

Outcome Comments

The Committee provided two scientific reports to DOE. These were sent to the National Scientific and Technology Council (NSTC), CCSP for approval; they constitute two of the 21 CCSP Synthesis and Assessments. The entire suite of 21 reports is intended to satisfy section 106 of the Global Change Research Act of 1990.

What are the cost savings associated with this committee?

Checked if Applies

- | | |
|---------------------|-------------------------------------|
| None | <input checked="" type="checkbox"/> |
| Unable to Determine | <input type="checkbox"/> |
| Under \$100,000 | <input type="checkbox"/> |

\$100,000 - \$500,000

☐

\$500,001 - \$1,000,000

☐

\$1,000,001 - \$5,000,000

☐

\$5,000,001 - \$10,000,000

☐

Over \$10,000,000

☐

Cost Savings Other

☐

Cost Savings Comments

NA

What is the approximate Number of recommendations produced by this committee for the life of the committee?

0

Number of Recommendations Comments

The Committee produced two scientific reports (see Narrative).

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

0%

% of Recommendations Fully Implemented Comments

The Committee produced two scientific reports (see Narrative).

What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?

0%

% of Recommendations Partially Implemented Comments

The Committee produced two scientific reports (see Narrative).

Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?

Yes ☐ No ☐ Not Applicable ☒

Agency Feedback Comments

NA

What other actions has the agency taken as a result of the committee's advice or recommendation?

Checked if Applies

- | | |
|-----------------------------------|--------------------------|
| Reorganized Priorities | <input type="checkbox"/> |
| Reallocated resources | <input type="checkbox"/> |
| Issued new regulation | <input type="checkbox"/> |
| Proposed legislation | <input type="checkbox"/> |
| Approved grants or other payments | <input type="checkbox"/> |
| Other | <input type="checkbox"/> |

Action Comments

N/A

Is the Committee engaged in the review of applications for grants?

No

Grant Review Comments

NA

How is access provided to the information for the Committee's documentation?
